

Are you interested in hosting  
a farm safety education  
demonstration in your school?

# Discovery Days

**You Choose if you would like the presentation to be  
Virtual or In Person!!**

Discovery Days is a highly successful farm safety presentation delivered by representatives from the Agricultural Health and Safety Network. This opportunity is free to schools who operate within RMs that hold a membership with the Agricultural Health and Safety Network.

Discovery Days are tailored for children in grades 4-6 who are immersed in agriculture at home or in their community. During each event, children are guided through fun and interactive farm safety activities. We can host these presentation through Webex, Zoom or Microsoft teams or we will travel to your school.

These activities include, but are not limited to, animal safety, chemical safety, hazard identification, grain safety, and machinery safety. Students participating in Discovery Days are asked to complete optional Questionnaires prior to and after the presentation to help us evaluate the effectiveness of this program.

Please contact Shelly for more information or to book your virtual or in person Discovery Day.
